

August 4, 2006

Chemical UK Limited has been named by the Environmental Agency as one of the only two UK chemical companies for its outstanding environmental performance, in the agency's report "Spotlight on business – Environmental performance in 2005".

This is an important recognition of our commitment and attention to every environmental aspect of our activities, and a confirmation that our efforts are placing our company amongst the top tier UK chemical companies for what concerns the care of the environment.
